VALVOLINE
Lubricating Oil
Engineers and other scientific men who have thoroughly tested this Mineral Lubricator, are unanimous in pronouncing it 'superior to all others.' Five parts are equal to eight of the best Sperm Oil (considered until now the best Lubricant) which, taken in connection with the fact that it never gums or oxidises makes it the cheapest lubricant in the market. It took the only prize at the Centennial Exhibition and is the only Cylinder Oil used in the British Navy. There can be no better proofs of its excellence than these.
The Cosmos, Rio Parana etc, use no other oil, and it is the only lubricant used in the Argentine Navy.
A new lot has just been received, and arrangements have been made with the manufacturers to keep up a continual supply, thus avoiding the possibility of again running short.
VALVOLINE for consumption in the River Plate, can only be obtained from the undersigned, because the manufacturers will not sell to merchants or Commission Agents, thus completely protecting consumers from being imposed on with falsification. These are already being attempted.

WEDNESDAY, JUNE 1, 1881

THE CLOSE OF MAY.

The month of May in the River Plate always possesses a higher importance than any other month in the year, attributable, perhaps, as much to the opening of the Chambers and Congress as to its political commemorations, or its being the beginning of the winter season. The close of the month of May, therefore, may possibly possess a higher interest than the close of the other months, yet whatever interest we attach to this remarkable River Plate month, that interest will be enhanced by a comparison of our political, financial and industrial situation at its close for the last 3 years. The political change is so great that if we span the period but for 12 months we have hardly room in these columns to chronicle the difference. This day twelve months the whole market hung upon a laconic telegram from Mr Sassenberg to Mr Emilio Fernandez, the President of the Bolsa. This day two years public attention was monopolised by the great naval engagement between the Huascar and Esmeralda, whilst this day three years the deficit of 14,000,000, in the Provincial Treasury, and the various schemes to reduce Provincial expenses, were the sole topics then discussed in the papers.

That we have improved since May 1878 is perhaps as much evidenced in the price of gold and by our stock and share list as by the rapid growth of our new estancias, the rise in cattle and the peopling of lands in the South and West hitherto the domain of the Indians.

So gigantic is the contrast between the state of this country today and this time last year, that grand as are the foregoing figures they are deficient to express the change in the people and the times; nor have we the courage to throw open our last year's file and renew the dolorous tale of that dreary period: suffice it to say that the errors which were then in the ascendant have been swept for ever from the political arena, and an improved political order has succeeded, traceable not only in the price of gold and the splendid rise of all National securities, but in the appearance of the city and its streets, in the garb of the people and in their very countenances. It is not to say that change is stamped on everything since last year, but improvement is universally reflected; and if May last year closed on an anxious and divided people, this year it concluded amidst a National prosperity and happiness perhaps unrivalled by any previous month of May in the Plate.

Such very great stress is laid upon the number of new projects now before Congress and the Provincial Legislature, all with one aim, to rid us of 'curso forsozo' and improve our banking system, that it may amuse and possibly instruct many of our readers to scan the following schedule of new projects before the Chambers at the close of May 1878. Time, with its wizard wand, has carried out many of those very projects which legislators proposed, but failed to pass, and reading backward our political situation, even through the ephemeral aid of old newspapers, we find ample evidence to prove that the country is more than a match for all the blunders of its politicians; nay, more than enough for the very extravagance of its too well to-do people.

The following is the list of projects in May 1878; there is nothing now before the public to match this bankrupt schedule:—

Several new projects have been born in the last 24 hours, and it may interest our readers to call to mind those now before the Legislature:

I. The Casares project to sell the Western Railway to the Provincial Bank in lieu of 224¼ millions due by the Provincial Government to said Bank.

II. Counter-project to mortgage or sell the line in London, and by putting the proceeds in Bank allow the Oficina de Cambios to resume specie payments.

III. Ex-Governor Casares's bill for allowing the Provincial Bank to wind up 'morose debtors' and give them a clean discharge.

IV. Deputy Seeber's scheme for carrying out the City Improvement Works.

V. The Casares project to order the Bank to withdraw 75 millions currency, buy gold on the Bolsa with the amount, and deposit same in the Oficina de Cambios as a first step towards resuming specie payments.

VI. Governor Tejedor's bill to burn 75 millions currency.

VII. Scheme for reform of the Provincial Bank by 9 special commissioners.

VIII. Dep. Hector Varela's project to to stop any more loans by the Provincial Bank to any Government, or Corporation.

IX. Dep. Luis Varela's project to devote the 75 millions towards making a railway to Pergamino

X. Deputy Escalante's project to reduce Senators and Deputies' salaries 20 per cent, as well as those of Judges and persons enjoying state pensions.

XI. Dep. Luis Varela's project to regulate Brokers and appoint a Bolsa Inspector, salary $96,000, to be paid out of the annual dividend.

XI. Proposal by same Deputy to invite the Argentine Government to pay 159 millions on account of its debt to the Provincial Bank, transferring the Bonds for one million sterling now held by Murrieta.

XIII. Same Deputy's project to call in all the Provincial Bank notes, burn them, and issue new ones.

XIV. Deputy Moreno's bill for the easier admission of lawyers, reducing the fee to $3,000 m|c.

XV. Governor Tejedor's proposal of Budget-reform, suspending scholars in Stockholm, Paris and Florence, and suppressing various subsidies.

XVI. ex-Governor Casares's project for a new terminus at Plaza Once, to cost 18 millions.

XVII. Another Western Railway scheme to prolong the line from Bragado to Carhue, new frontier.

The Maskelyne's Mails.

London, May 5th.

In the House of Commons yesterday the Speaker announced the receipt of a letter from the Lord Lieutenant, conveying the formal intimation of Mr. Dillon's arrest. The second reading of the Welsh Sunday Closing Bill was carried by 163 to 17. The Banking Laws Amendment Bill was withdrawn and the Thames River Bill having been introduced by Mr. Chamberlain, the House adjourned.

A Cabinet Council was held yesterday, at which all the Ministers were present.

Yesterday morning the Admiralty received a further telegram from Montevideo, announcing the loss of H.M.S. Doterel. It states that the vessel was totally destroyed and sunk by the explosion of the fore mag azine, at Sandy Point, on the 26th of April, at 10 o'clock in the morning. It is supposed that the boiler burst and caused the explosion. Eight officers and 135 men are reported dead. The names of the survivors are given in the telegram. A full list of the officers and men supposed to have been on board the vessel at the time of the catastrophe has been issued by the Admiralty.

A telegram from the Viceroy states that according to telegrams received at Quetta, from Candahar and Girisk, the country was quiet up to the Helmund. News from Herat states that Ayub Khan has difficulties with his regular troops, but that the story of dissensions with his sirdars are without foundation.

A special telegram from our St. Petersburg Correspondent, reports the proceedings at a Council of the Russian Ministers, held on Tuesday, under the presidency of the Czar. The result of the deliberations was an unanimous agreement in favour of the unity of the Administration. For the moment the question of convoking representatives of the people to take part in the discussion of State questions stands over. Our correspondent has no doubt, however, that this reform will shortly be introduced.

Our Correspondent at Tunis telegraphs that M. Roustan, the French Consul, has sent a circular to the other Consuls, in which he declares that the only object of the French expedition to Tunis is the punishment of the Kroumirs.

Our Constantinople Correspondent telegraphs that an Imperial decree has been signed by the Sultan authorizing the acceptance of the propositions made by the Powers for the delimitation of the Greek frontier.

Another telegram from our Constantinople Correspondent states that the investigation into the causes of the death of Abdul Aziz continues. The questions to be determined are whether the death was caused by murder or suicide, and whether there was a conspiracy to assassinate the whole of the reigning family, with the exception of Murad and his son. The inquiry has been conducted privately. Our correspondent says he believes that the report is now drawn up, and that the matter will come before the tribunal specially constituted to try the persons implicated. Two of them are said to have confessed that they took part in the murder.

Speaking at Kettering yesterday, Sir S. Northcote said that the last words of Lord Beaconsfield were—"Is there any bad news in the 'Gazette' This showed what his forebodings were. He hoped they would prove only forebodings. The Conservative party was united, and with respect to the leadership they might depend upon it that personal feelings would be subordinated, and that the chiefs of the party would work harmoniously. He strongly condemned what he described as the inconsistencies of the present Government, and warned them that if the Irish Land Bill passed, the Communistic tendencies of the Government would not stop there.

Prince Leopold yesterday was present at the twelfth annual meeting of the Charity Organization Society, which was held at the Egyptian Hall of the Mansion House, the Lord Mayor in the chair. The adoption of the report was moved by Sir R. Cross, M.P., seconded by Mr. Bryce, M.P., and carried. A resolution approving of a scheme for holding conferences with other charitable societies was also agreed to.

Lord Shaftesbury presided yesterday over the annual meeting of the British and Foreign Bible Society at Exeter Hall, Earl Cairns moved the adoption of the report, in the absence of the Archbishop of Canterbury. The other speakers were the Bishop of Rochester, the Bishop of Moosone, the Rev. Joshua C. Harrison, of Camden-town, and the Rev. Silvester Whitehead, Wesleyan Missionary from China.

Last evening, at the anniversary dinner of the Royal Literary Fund, Mr. J. Russell Lowe, the American Minister, presided. Amongst the speakers were the Earl of Derby, Lord Coleridge, the Earl of Dalhousie, Lord Colchester, Viscount Enfield, the Dean of Westminster, the Solicitor-General, Sir Garnet Wolsaley and Mr. Justin M'Carthy, M.P.

At the annual meeting of the National Rifle Association yesterday, the Duke of Cambridge in the chair, Lord Elcho, M.P., announced that Mr James Mullens, of No 4, Lombard street, in writing to suggest the desirableness of stimulating the practice of firing, at moved targets at unascertained distances, had sent a cheque for £2,500 to found a prize for such practice.

The Association of Trade Protection Societies held their thirty-third annual meeting at the Westminster Palace Hotel yesterday, and discussed the Bankruptcy Amendment Bill, the Bills of Sale Bill, and various other subjects, and in the course of the day had an interview with the President of the Board of Trade, who made a statement of his views on the Bankruptcy Amendment Bill.

Yesterday the general meeting of members of the Iron and Steel Institute was held at the Institute of Civil Engineers in Westminster. The report of the council for 1880, which was read by the secretary, stated that the condition of the organization was still very satisfactory.

There were fourteen runners for the Two Thousand Guineas Stakes at Newmarket yesterday, Mr Norman's Peregrine coming in first, Mr P Lorillard's Iroquois second, and Mr J R Keene's Don Fulano third. Amongst the other results of the running were the following: Prince of Wales's Stakes, Milan; May Stakes, OEnone, Rosebery Plate, Exeter; Two-year-Old Plate, Isabel; Handicap Plate, Lead On.

Temperature yesterday ranged from between 54 and 57 degrees in the south to 43 at Aberdeen, but seemed likely to fall fast over England in the course of the night.

The grand jury at the Old Bailey yesterday returned a true bill against Herr Most, the proprietor of the *Freiheit*, for inciting to murder. They appended an earnest and unanimous expression of opinion that the publication in this country of incitements to the assassination of foreign rulers or others abroad is brutal and unEnglish, and should always be rigorously dealt with by the authorities here. An application will be made on behalf of Herr Most for a postponement of the trial to the next session.

In the stock markets yesterday business was very active in foreign bonds, and prices of Egyptian and Turkish fluctuated sharply, but closed below the best points, Spanish Three per cents rose ⅜. Consols fell ⅛. Home railways left off at an advance of ¼ to 1 per cent, after being dull. Canadian and American lines were steady. The rate of discount in the open market remained at 2⅛.

LOSS OF THE DOTEREL.

Our Chatham Correspondent writes:—"The telegram received from Montevideo by the Admiralty yesterday was posted outside the dockyard gates, and read eagerly during the day by large numbers of persons. It would appear from the

Can be used with COLD WATER. Sole Agents MOORE & TUDOR. Maypu 95 and 127. Beware of imitations and falsification

number killed that the vessel at the time of the disaster had not disposed of the supernumeraries which she took out for the other vessels on the Pacific station. A great many of the relatives of those lost reside at Chatham, the whole of the Royal Marine Light Infantry on board belonging to the Chatham Division. The machinery of the vessel, as well as the boilers, was supplied and put on board by Messrs. Maudslay and Son. Mr Kingsworth, one of the junior officers at Chatham Dockyard, has lost a son by the explosion. He also lost a son by the bursting of the boiler on board the Thunderer two or three years back. The officials of this yard are entirely at a loss to account for the explosion of the boiler, if that was the cause of the accident, as the boilers were properly tested before being put on board, and again before the vessel left for her destination."

Our Sheerness Correspondent writes ;—"The catastrophe to the Doterel, which was lying at Sheerness ten days before she proceeded on her voyage, has caused a profound sensation in this town. The painful excitement is heightened by the fact that a large proportion of the bluejackets forming the crew of the ill-fated ship were drafted from the Royal Naval Barracks, Sheerness, and consequently had many friends and acquaintances in the place. Many of them, too, were natives of Sheerness. The tidings first reached here through a telegram from the Admiralty to Vice-Admiral Sir Reginald J Macdonald, K.C.S.I., Commander-in-Chief at the Nore ; and it was soon the absorbing theme of conversation in the town."

Our Portsmouth Correspondent writes :—"Very little value is attached here to the supposed cause of the explosion. The probability is that as the ship was at anchor steam would not be up, and in any case a boiler could not have exploded without the effect being clearly distinguished at 10 o'clock in the morning. It is known that the Doterel had large quantities of gun cotton on board for distribution among the other ships on the station, and in the absence of further details the probable cause of the disaster must be inferred to arise from some carelessness in respect to this explosive. The Doterel wes formed of planking attached to iron framing, and was in consequence devoid of a double bottom and watertight compartments. With a hole punched out of her bottom she was bound to sink,"—*Times*.

Gossip and conjecture are rife at every naval station round our coasts, endeavouring to piece together facts and guesswork, in order, if possible, to account for the destruction of her Majesty's ship Doterel at Sandy Point nine days ago. Naval men and engineers are loth to believe that a boiler explosion would be likely to have caused the mischief ; and, putting aside the fire-damp, gun-cotton, and gunpowder theories, there would appear to be a surmise that the disaster arose through the ship having come in contact with a torpedo. The spot where the explosion took place is off the shore which belongs to the Chilians, or at least is in their possession, and it is believed that during the late war their enemies, the Peruvians, entertained the idea of laying down torpedoes with a view to the destruction of Chilian craft. If we accept the suggestion that the ill-fated sloop may have come into collision with a fugitive torpedo, it would not be necessary to travel further in search of a cause for a catastrophe as mysterious as it is awful. On the other hand, if the affair happened with such terrible suddenness as the torpedo theory assumes, it appears strange that as many as five officers should be saved out of a total of seventeen, all told. An attempt has been made to account for the discrepancy by the conjecture that the accident may have occurred in the forward or seamens' part of the ship. Of the one hundred and thirty-five souls missing only eight were officers. It may be assumed that Lieutenant Stokes, who remains on duty at the scene of the disaster, will ascertain all that it is possible to discover touching the origin of this shocking calamity. The court-martial, or court of inquiry, may also be of some service to the same end. At present, however, nothing definite is known, and in justice, as well to the living as to the dead, it is but fair that we should wait for some specific information before speculating on the possibility that human foresight might have averted the loss of this fine vessel and nearly all her gallant crew.—*Telegraph*.

EDITOR'S TABLE

The favourite steamer Maskelyne. Commander Chevalier Hairby, has brought London papers to the 5th May. A National monument is to be erected to the late Lord Beaconsfield, at least such has been proposed in Parliament, and it will certainly pass, although Mr Labouchere gave notice that he would move 'the previous question' when the motion came on. The *Times* says the Government will have a very large majority on the Irish Land Bill. The charge on which Mr Dillon, M.P., was arrested was 'inciting to violence.' The Doterel disaster caused a terrible sensation in England, especially at Sheerness and Chatham, where most of the men came from. It appears that the ill-fated ship had a large quantity of gun cotton on board for the Pacific squadron, and it was this, most probably, that exploded, and not the boiler. In England they laugh at the idea of the boiler having exploded. Some papers say the Chilians may have placed torpedoes in the port, and forgotten to remove them when Peru was crushed, but this theory can hardly stand. It was the gun-cotton that did it.

Nothing very fresh from Montevideo, except that the Brazilian Government had asked Col. Latorre to move from Yaguaron, and as he flatly refused to 'move on,' it has now given him 8 days to do so ; he is therefore packing his trunks, some say for Montevideo. Politics have disappeared from the newspapers in the sister city, which ought to be a prodigious relief to the peaceable portion of the community.

It turns out now that the late Czar signed a ukase convoking a National Assembly a few hours before his murder. Too late! The present Czar is about to publish it. Prince Bismarck is now credited with a project to remove the capital of the empire from Berlin.

President Roca gave $1,000 m/c yesterday for a copy of the *Invalido* to a young 'cronista' who called on him on behalf of the disabled veterans of the army.

Dn. Samuel Navarro has been named Commissary General of Immigration 'ad interim', vice Dn. Angel Elia who died so suddenly on Saturday last.

An Englishman tried to drown himself on Monday on Paseo de Julio, but was fished out of the water by the police. When questioned he denied the right of the authorities to prevent him making away with himself if so minded, and he refused to say a word more on the subject. It is supposed that he is 'off his head.'

The meeting of the Ladies' Irish Beneficent Society will take place on Wednesday, June 22d.

The distribution of prizes at the Victoria Theatre on Monday night, to the pupils of Messrs. Junor's school was a brilliant success. The house was full to the doors, and the programme gone through without a single hitch. Everything was well done from beginning to end, but Miss Isabel Junor's playing of the grand march from Tanhausser deserves special praise ; the trio for violin, flute and piano by Messrs. Lombardi, Liguori and Mancini was also splendid, and the same may be said of the symphony from Jeanne d'Arc, the trio from Sonambula, and the duo from Robert le Diable. Mr Guido y Spano presided, and made a most eloquent speech. The prizes were very costly and handsome.

A singular petition was presented to the National Government on Monday by a woman named Carmen Souchayo who holds the rank of sergeant in the 2nd Cavalry. She is now on the retired list and demands her pay since 1877, as she has not received a dollar since that year. If the Minister of War has a spark of gallantry in him, he will pay Carmen, even if every man in the army go unpaid.

'Caramba.' The Marine Battalions of the Republic now number 3000 men. This is a surprise. The Marines figured A 1 at the May fetes.

Chile appears to be in capital credit just at present, as an English house has offered her a loan of £10,000,000 and a French one £12,000,000, but President Pintos says 'a plague on both your houses' and refuses both offers, although the Republic is rather hard-up at present.

There will be a new prima donna —Senorita Rosa Negri, an Argentine—at the Colon Theatre next week. She will make her debut as Gilda in Rigoletto. She is pretty sure of the good wishes of her audience, and she has ours in advance.

Don Francisco Moreno. the distinguished Argentine explorer, has returned from Europe covered with geographical honours bestowed on him there. We give him a 'cead mil faltha.'

The papers announce that some changes are impeding in the organization of the Argentine Church. The Archdiocese will be confined to the city, and a new see will be created for the province. The see of Salta will be divided, with a new Bishop in Tucumau.

The Cacique Pichon has obtained a grant of land in the Gran Chaco from the National Government and intends to settle down on it and live industriously for the rest of his life.

If Mr James Haddock C.E., will kindly favour us with a call, we shall be happy to deliver to him a message of importance from England, which we have received for him by the mail.

The accounts of the freshet in the Uruguay are most alarming. The Mole, the Resguardo and several houses are under water at Paysandu. In Salto matters are worse, and the river is higher than it has been for 17 years. Some villages higher up have been washed away, and immense quantities of broken trees and other 'debris' are being swept down to the ocean. Several excursion parties have started from Salto for the Upper Uruguay.

The *Nacion* of Montevideo is to be published in this city while the row lasts down there. We may expect some thunder and lightning penmanship, and Santos's ears must be very hot.

Cordoba has started a tramway from the city to the San Vicente Colony. There was a general holiday in the learned city the day the first sod was turned. Anything so go-a head as a tramway is a decided novelty for the easy-going Cordobeses. What will they think of the telephone when they get it?

'Vorwärts!' is still the cry in the Interior. The nett receipts of the Central Argentine Railway in April were $ 1·61,314.

The Municipality of Rosario gave Governor Iriondo, as a present on Independence Day, a model in confectionery of the new Pyramid ordered in Italy for the centre of the Plaza.

Mr. Fuller has sold his share in the mill at Carcarañá, and is going to open a chair manufactory, to be worked by water power, on the same river. The consumption of chairs in the River Plate is greater than people imagine. In no country in the world are the chairs so ricketty, and one three-legged stool is worth a dozen of them. We wish Mr. Fuller the fullest success.

The football season opened in Montevideo on the 28th ult., when a 'pick-up' match took place. Some good play was shown by players on both sides ; notably on one side by Mr. Nisbet, who did damage to his opponents not only by his good play, but also in destroying their garments, one player alone losing no less than 3 jerseys. We would recommend the 'wild Irish boy' who thus came to grief to obtain by next match some material that will not tear, though we fear it will take a rare material to hold the 'obstructionist' in bounds. Mr. W. Jones also played in good style for his side, ably backed by Mr. Neel, one of the best football players we have. For the opposite side Messrs. Towers and Stokes did all the work, having principally novices on their side, one of whom continually made for his own goal, and always 'tackled' the players on his own side. We would recommend this gentleman to study the rubs a little before his next appearance in public. A match has been arranged for the 16th of June, the Cricket and Rowing Club. It promises to be a most exciting and interesting one, and we hope there will be a large attendance to witness it.

A general meeting of the Montevideo Cricket Club was held at the British Legation on Friday evening, 27th ult. The Hon. E. Monson, C.B., President of the Club, in the chair. The principal business before the meeting was the election of a Captain, in place of R. C. Moore, who retires from the post, owing to his leaving soon for England. After a warm vote of thanks had been passed to Mr. Moore for his services, Captain Denny Stokes was unanimously elected to fill his place, and if this gentleman will devote a little of the time which he spends in playing 'tennis' with the 'fair sex' to looking after the interests of the Cricket Club, we feel quite sure that it will have a successful season under his Captaincy.

ON 'CHANGE.

May 31ts

Patacons	28.50
Cedulas A	97½
National Bank Shares..	92½

The gold market opened hard at 28,50, dropped to 28.45, and closed at 28.50 ; close on 700,000 pats were sold cash to close the liquidation, and the opinion is general that owing to the Provincial Bank cashing all the bank checks running in the market and failing into the Provincial Bank, the Directors were acquainted with the necessity of selling some of the gold it took off the market in order to ease the month's liquidation ; but the gold could not be sold at the price the Bank fixed, and it is said that consequently so much more gold hangs over yet to be sold in the ensuing month. The strings of the market were perhaps never tighter drawn, but the profound universal and firm conviction that 'curso forzoso' is doomed, and that the country is rapidly rising to par had even a greater effect than all the millions held by the Provincial Bank. Even up to yesterday there were men on 'Change who thought gold would close today at 28.30 or 28.90, but our prediction that Saturday's prices would be about Tuesday's closing rate proved correct to the letter, and the downward march of the gold market will now be unchecked by the incubus of an exorbitant month's liquidation. Gold for June was sold at 28.05, and for end of July at 27.95; very soon the figure of 28 will vanish from the gold black board.

Cedulas rose under the pressure of the liquidation, which very clearly shows how we stand with that stock. The pessimists were again beaten on the Cedula ground, and it was amusing to see men standing with the ready money in their hand to pay for stock that in many cases had to be bought in the liquidation room or withdrawn from the deposit safes of the Bank, to close up transactions. There was no mistaking the fact since the very coupons were cut off and handed over in an envelope, which showed from whence the stock came. The truth is the market is swept clean of all 8 per cent stocks, and we look for Cedulas at a premium before the July coupon matures.

Nat Bank shares showed their strong back bone to-day, and people that stood back waiting to buy up at 90 found that when the stock touched 91½ bot on, and a very hard bottom was touched and the stock rebounded. Three thousand shares were done cash, and 1750 for end of June. This stock will now look up just in the ratio as gold looks down. Surpassingly important is the fact that in such an enormous liquidation everything was met, with honour. The battle is over, and never since the Bolsa was built was there so heavy and so mellifluous a liquidation. In shares all capitalists and men with money made splendidly ; in gold all who looked up and believed in the country came out right, as will ever be the case when public affairs are on a good sound footning.

The greatest of all news in the market was that the Nat. Government had drawn some exchange on London to-day £10,000 which was passed at 49½. The London and River Plate Bank having the honor of being the first taker of this exchange which establishes a rate ; white kid gloves for Mr Todd, the popular manager of this bank, whose shares we note by the *Times* received per Maskelyne, are at 40 per cent premium ; verily a good manager makes a bank.

We have received by the mail letters enquiring for Mr Haddock, to whom a legacy of some importance has been left.

The friends of Captain Mallet, H.M. Consul in this city, will be delighted to hear that he arrived at Rio much improved by the voyage, the sea air being his best physician.

Mr. Fisher, manager of the Central Argentine Railway, was welcomed on 'Change ; also Mr Black, who has come up from Montevideo ; he says that, search that town through, there is not a copy of the *Standard* to be found, and that the merchants talk of getting our On 'Change article down by telegraph.

Mr Snell, of the firm of Snell and Co., and Mr Hudson, the architect, took leave of their friends on 'Change ; they go to Europe in the Don Pedro.

Gold at the afterhours ran down to 28.30, and at 4 o'clock crowds were waiting at the liquidation and the news in the hall was there was no paper. Later on, however, some paper came forward, still the day closed with—

GOLD OVER.

BANK SHARES SHORT.

At half-past 4 o'clock the liquidator called his auction to sell gold.

10,000 offered, first bid 28, closing at 28.20.
10,000 sold at 28.20
5,735 sold at 28.25

The auctioneer then called for National Bank Shares, and bought as follows—

100 shares bought at 93½
100 do do 93¾
50 do do 93½

Thus the auction closed, amidst the cheers of the brokers in the liquidation room.

In general business very little talked of on 'Change, dry hides are in demand, and they say none to be had. The business in salted hides is summarised so by Messrs Sansinena & Sons in their circular : Sales of salted hides since 14th May :—

The Prov. Bank, it seems, sold the gold today for the Western Railway exchange, about 250,000 pats, the bills were passed at 49½ and taken by the Prov. Bank.

Various amounts of first class exchange passed to day at 49½, and bills offering at this rate, and 5.22 on Paris.

In the wool markets this morning several sales ; Mr Peyrodieu sold one lot at 93.

Letters have been received from the United States, asking a house here to send a consignment of its gin to Massachusetts. It seems that a case, bought from a wreck off Teneriffe, found its way to New Bedford, and all who tried the gin asked for more, pronouncing it the best gin ever tasted in the United States. The gin is a well known brand in this market, which goes to prove what we have often stated that in some articles this market is better supplied than many of the most prominent markets in the world's commerce.

There was news talked of on Change, which is at present held up, but when known will have a most beneficial effect on this market in a few days the matter will be public.

It was generally said on 'Change to-day that the National Minister of Hacienda drew exchange for the Dom Pedro mail—say £400,000—but the bills were not sold in the market, but remitted to the London bankers.

Nearly all the papers say that there will be strong opposition in the Chambers to Governor Rocha's project to consolidate the debt and pay off the bank. We think our colleagues are given to exaggeration in the matter. Some few may oppose, but there can be little doubt it will be passed. In fact were it otherwise, the whole matter would then rest with Congress, which now has exclusive jurisdiction in this city. Congress, to a man, is opposed to the Indians on our frontier and 'curso forzoso' in this market, General Roca has cleared us of the Indians, and he and Congress will doubtless complete the work and free the country also of this most pernicious forced currency.

The Sales at afterhours were—

This being the closing day for the month of May's liquidation, there was, as a matter of course, an immense push around the ring, and as to-day is the first day that people who bought National Bank Shares liquidated their time purchases, there was necessarily a very stiff demand for money to cover everything. Since yesterday, however, it was apparent that money was coming in very fast on 'Change. Gold was sent to the Bolsa for sale yesterday at a limit of 28.50, but hardly had the King begun to sell a trifle when down came the market 15 cents, and the order could not be carried out. Aware of this, most of the well informed brokers stood back from the ring this morning, and those who hoped against hope to keep up the prices felt that the weight on their shoulders was greater than they could bear. The gold vencimientos amounted to 11,781,156 during official hours, and possibly 6 or 7 millions sold at after hours, which gave a total in gold to be liquidated of say 18 million pats.

The Cedula liquidation contrary to every belief was very large, amounting to at least one million fuertes between the official figure 485,000 and what was sold during the month at after hours.

And the National Bank Share liquidation marked on the board at 29,359 shares really amounted to 59,000 shares, owing to the very large after hour business carried on during the month.

Thus we may accept the May liquidation as, perhaps, the heaviest ever known on 'Change ; a business entirely out of proportion with the capital of the market or even its population, and which points to the very great necessity of the Government pruning a speculative growth ahead of all other markets and indicative of little good to the country. The abolition of 'curso forzoso' means a reform much called for, and will send at least 250 brokers to the far more profitable occupation of estanciero.

The Maskelyne's mails are to London 5th, being one day ahead of the Congo's, also delivered to-day. The loss of the Doterel is published in the London papers of 5th May, and produced a profound sensation. We give in another column extracts from the London papers. The Maskelyne was detained 36 hours by a heavy pampero ; she has brought out quite a colony of Irish and Welsh sheep-farmers, and our friend Nash has on board 10 Southdown rams, 2 horses and 7 bulls ; all go to Baitar and Quesada's and will be in the stables there in a few days. The animals have arrived in splendid condition. The Maskelyne will be up in the morning, when we hope for the pleasure of welcoming Chevalier Hairby on 'Change.

It will doubtless interest merchants to know, that spite of all that is said about nothing doing in wool, and complete paralyzation in both plazas, we always shipped to Europe in May 15,000 bales, which for a winter month is perfectly unexampled in the history of our port.

The Western Railway exchange on London we hear, was passed yesterday £50,000, the bills were offered in the market and it goes to show how our exchange market stands when one of our banks would make no higher offer for the bills than 44d, which at the present price of gold is something over 50d. We fear our friend who hazarded a pair of gloves on the rate will lose. Bills passed to-day on Paris at 5.22-23, and on London offering at 49½, but there are no takers in gold, and the banks are drawing for their customers at 48½, to be paid for the exchange in July and August in gold with 6 per cent interest, which in reality amounts to a rate of 47½, which may be accepted as the drawing rate of the banks in the market to-day.

Affairs in Paraguay seem certainly on the mend, and the following very respectable cargoes for the two river steamers from there shows what is doing in exports :—

The sales of estancia lands continue on such a scale that we cannot keep up with them. We hear of about 40 leagues of land purchased for the most part by foreigners since the May feasts, and we remind our readers that soon Messrs Baltar & Quesada will sell by auction 100 leagues of splendid land in the provinces ; maps, plans and pamphlets of the lands can be had at the auctioneers'.

MALTINE.

(Extract of Malted Barley, Wheat and Oats.)

The Original and only Preparation Composed of these three Cereals.

MALTINE is a highly concentrated extract of malted Barley, malted Wheat, and malted Oats, containing, undiminished and unimpaired, all the nutritious principles that can be extracted from these cereals. By the most carefully conducted scientific process we are enabled to offer a perfect article, possessing five to ten times the beneficial and nutritive merit of any alcoholic or fermented Extract of Malt.

"WHEAT and OATS are especially rich in muscular and fat-producing elements."—Liebig.

MALTINE will increase both weight and flesh in most persons of thin habit.

MALTINE is particularly recommended for delicate Females and for weak and debilitated Children and Infants.

For Deficient Lactation, and for Mothers whilst Nursing, MALTINE is especially recommended.

MALTINE is the most important combination for use in Constipation.

MALTINE is entirely free from all products of Fermentation, such as Alcohol and Carbonic Acid Gas.

MALTINE is very palatable and pleasant, and will be readily taken by the youngest child.

THE COMPOUNDS OF MALTINE

Can undoubtedly be used with greater success than any other remedy now known in cases of General and Nervous Debility, Indigestion, Imperfect Nutrition, and Deficient Lactation ; Cholera Infantum and Wasting Diseases of Children and Adults ; Convalescence from Fevers, and whenever it is necessary to increase the vital forces and build up the system.

For Consumption and Wasting Diseases.

MALTINE with Cod Liver Oil—The most perfect emulsion and most agreeable and effective mode of administering this nauseous but valuable Oil yet discovered.

MALTINE with Hypophosphites—This preparation is specially indicated in Consumption, Rickets, and deficient Ossification.

MALTO-YERBINE.—A most palatable and efficacious remedy and substitute for Cod Liver Oil in the treatment of Consumption and Wasting Diseases ; also the most perfect remedy yet produced in Chronic Pulmonary Affections, Coughs and Colds.

Agents——A. EASTMAN & CO, Buenos Aires.

Anglo-American Drug Warehouse, 9—11 Defensa

CAUTION—Examine each Bottle and see that the capsule is marked The Maltine Manufacturing Co. L.D. Without it you have been imposed upon by a worthless imitation.

ZINGARI CRICKET CLUB ATHLETIC SPORTS.

The above sports came off on the 25th ult. Unfortunately, owing to the bad weather, the attendance was comparatively poor, although the fair sex exceeded the males in point of numbers. The different events were well contested, and on the whole the day was a success.

The following is the list of events and their several winners:—

1st—Throwing the Hammer.

1st, H A Stockdale, 68 ft 7 in

2nd, D Munro

2nd—Flat Race 100 yds.

1st, A J Underwood, 11 secs

2nd, W Underwood

This event proved rather a disappointment, as a close race between W and A J Underwood and G E Image was expected, but owing to the latter being in bad condition the race lay between the two brothers, ending in an easy victory for the younger one. Five competitors started.

3rd—Throwing the Cricket Ball,

1st W G Stearn, 83 yds 2 ft 7 in

2nd, F Stearn

Competition was very poor in this event, in spite of there being six competitors.

4th—Flat Race 1 mile.

1st, G J McLean, 5 min 31 secs

2nd, I T van Houten

This race was won in very good form, I van Houten running a very fair second. The time is only middling, as the runners had to run against a strong wind most of the time. As usual in races, the favourites were no place. Four competitors started, H Ackerley taking first place from the start, which he lost during the 2nd lap to I van Houten. The third lap was the best during the race; W Cowes spurting at the commencement, induced G McLean to follow him, and a very good struggle was kept up till the 4th and last lap, when I van Houten again came to the front, taking 2nd place, which he kept until the finish, coming in about ten yards behind the winner. The prize was presented by Messrs T Drysdale and Co.

5th—Length Jump Running.

1st, G E Image, 17 ft 4 in

2nd, W F McKern

Only three competitors appeared, G Image winning by two inches. Prize presented by R J Runciman, Esq.

6th—Flat Race 150 yds. Boys under 15 years.

Won easily by Wilson, who gave as much as 20 yards start to some of the competitors.

7th—Hurdle Race 120 yards, 10 flights 3 ft 6 in.

1st, G E Image, time 20 secs.

2nd, A J Underwood

Much interest was shown in this event, as, thanks to the beautiful prize presented by Mr H Trotman, a hard struggle was looked for. G Image won the first heat rather easily, C E Stockdale 2nd. The 2nd heat was well competed. A Underwood getting the lead, was not caught until the 4th hurdle was reached, when W F McKern took the 1st place and cleared the last hurdle well in front of Underwood. On touching the ground, however, he stumbled on his knees, and A Underwood ran in, winning a very good race by a few inches. The final heat was not run, as A Underwood was unable to start.

8th—Pole Leaping.

1st, H Thompson, 8 ft

There were only two competitors for this and no competition, H Thompson winning easily at 8 feet.

9th—Sack Race, 100 yds.

1st, G J McLean

2nd, C E Stockdale

The two winners ran a dead heat for 1st place, which, on the second trial, was won by G J McLean by a yard.

10—Flat Race 440 yds.

1st, W Davidson, 59 secs,

2nd, A J Underwood

This was considered, with the exception of the 200 yards race, the best event of the day. Six competitors started and ran well together till about 150 yards from home, when two dropped out and Underwood tried hard to get away from the three remaining, but could not manage. In the spurt home the four were running well abreast, Davidson slightly behind, when both F Stearne and G Burton had to drop out and leave Underwood leading. About ten yards from home Davidson put on a splendid spurt and won a very hard race by a few yards. All the competitors ran in very good form, and in spite of the strong wind the race was finished in very fair time. Prize presented by Messrs A C Bean & Co.

Interval.

11th—High Jump Running

1st. C E Stockdale, 5ft. 2 in.

2d. E D MacKern.

The competition was also very poor in this event, being won very easily at 5ft. 2 in. by C E Stockdale, E MacKern only clearing 4ft. 11 in.

12th—Flat Race, 880 yards. Prize presented by Mr Rodger.

1st, H Thompson, 2 min 18 sec.

2d, F van Houten.

Only four started, all ran well together for the first lap. H Thompson then steadily began to increase his lead and ran in, an easy winner by 15 yards.

13—Hopping Race, 100 yards.

1st, A J Underwood

2d, C E Stockdale.

A good race ending in a very close finish. 5 started. Prize by C S Bowers, Esq.

14th—Flat Race, 200 yards.

1st. A J Underwood 23 secs

2d, G J W Burton.

Four started, Underwood getting a good start, kept it until about 40 yards from home, when G Burton took the lead in splendid form, but was passed again a few yards from the winning post by Underwood, who won the best competed race of the day by a few inches.

15th—Walking Match, 1 mile.

1st, A W Boote, 8 min 21 sec.

2d, G J McLean.

Four started After the first lap the race lay between two winners, Boote leading by a few yards until the last lap when McLean walked up to him and struggled for the lead for some 50 yards, when Boote again walked away and won a good match by 12 yards. Prize presented by C H Sanford, Esq.

16th—Three Legged Race, 100 yds.

1st, G J W Burton and C E Stockdale.

As usual, this event afforded great amusement, most of the couples coming to grief.

17th—Stranger's Race, 300 yds.

Splendidly won by H A Cotman, who lead from the start. Three started.

18th—Steeplechase, 1000 yards

1st, F van Houten

2d, H Thompson.

This event also afforded much amusement, owing to the competitors going bodily into the ditch, which was a very stiff jump. Out of seven, who started, only three finished, van Houten, who was once as far as 100 yards behind, winning by a few yards, receiving a handsome prize presented by G MacKern Esq, as a set off against his two cold baths.

Next followed the presentation of prizes which was very kindly and gracefully gone through by the President of the Club and several of the young ladies present, who instigated the successful Athletes to future exertions, by their well-chosen and generous words of praise. The special train kindly provided by Mr Crabtree, then took both spectators and competitors home, after a really good day's enjoyment.

Messrs Sylvester and Duc, as judges, Mr J P White as starter, Mr R H Murray as clerk of the course, and Mr H A Cotman as time-keeper, severally managed their different and tedious offices to perfection, helped considerably by the gentlemen who kindly acted as stewards.

Hon. Sec.

En la proxima semana y a las 12 del dia, venderemos a cualquier precio, sin retirar ningun de los animales puestos en venta y al contado, este magnifico lote, que lo constituyen animales de diversas razas, los cuales han sido adquiridos por onalmente por el senor Nash, no en los rodeo s sino en las ferias que es donde unicamente pueden conseguirse los mejores, puesto que los duenos del rodeo separan LO MEJOR para las ferias. Segun el Sr Nash la mayor parte de los animales han sido premiados.

Llegaran vacas, toros, potrillos, yeguas de carrera y un lote elejido de carneros Lincoln, el todo como no se ha presentado aun aqui.

Lo prevenimos pues a los hacendados.

At 2 p.m.

I shall auction, by order of the proprietor, this splendid camp, situated in the Department of Villaguay, on the borders of the Department of Uruguay, 14 leagues from the capital of the Province and 5 or 6 from the town of Villaguay. It is surrounded by important establishments such as those of Don Aurelio Jorge, D Eduardo Almagro, D Teofile de Urquiza and the heirs of Benitez. The pasture is of the first quality suitable alike for sheep and cattle or for agriculture, the greater part being black vegetable earth, 50-60 centimetres in depth.

Persons interested in seeing the land can take the bus which leaves Uruguay for Villaguay on Mondays and Thursdays, and will leave them at the estancia of Don Teofilo de Urquiza, where they will find a person to shew them the land.

Advantageous conditions of sale

The sale will commence at the upset price of $f4 or $100 m|c per square of 150 varas, payable as follows—¼th part on signing the deeds, and the remainder in instalments with interest at 1 c|o monthly at 1, 2 and 3 years. A better opportunity cannot be offered to acquire a good piece of land. In this Province $200 per annum is paid per square of land for agricultur and we offer to sell the property for the half of what is paid here for rent, bearing in mind that this land is admirably situated for agriculture on a large scale not only by the fertility of the soil but also for the facility of river transport. The title deeds, which are in the best order, will be delivered GRATIS to the buyers.

The auction will take place in my office, San Martin 90, on the day and date named. For more particulars apply at my office.

Note—Our object in offering these lands on such convenient terms is to attract a population of agriculturists and laborers to these very fertile and productive lands.
